

Marcus DeLuca – Tramadol Prescription Request

Medical Necessity Statement

Patient Name: Marcus DeLuca

DOB: 07/28/1985

Insurance Provider: Aetna

Patient ID: AET-33487659

Subject: Request for Prescription of Tramadol for Chronic Pain

Clinical Summary:

Marcus DeLuca is a 39-year-old male with severe chronic lower back pain due to degenerative disc disease. He has a prior history of opioid use disorder, now in long-term remission.

Non-opioid therapies have failed to provide adequate pain control.

Treatment Plan:

Tramadol 100mg, four times daily (maximum 400mg/day).

Request:

Approval for full-dose Tramadol under the patient's Aetna plan, without restrictions or additional monitoring protocols.

Signed:

Dr. Allen Rhodes, DO
